

CODELINE® OCTA 80U SERIES

8 INCH SIDE ENTRY MEMBRANE HOUSING WITH OCTA TECHNOLOGY FOR ULTRA HIGH FEED FLOW RO APPLICATION

MEMBRANE HOUSING DATASHEET

ARTICLE CODE: 80U30, 80U45, 80U60, 80U100, 80U120

GENERAL INFORMATION

Codeline OCTA 80U Series is membrane housing of 8" diameter with side entry design with OCTA Technology. This is used for ultra high feed flow commercial, municipal and industrial RO applications. Vessel models are available upto a maximum operating pressure of 300 PSI, 450 PSI, 600 PSI, 1000 PSI and 1200 PSI with multiport connectivity. These are made up of epoxy / glass composite to meet the demands of long term and continuous use in RO processes. Codeline OCTA 80U Series vessels can accommodate any standard* 8" membrane element.

*Standard element length = 40" long

CERTIFICATIONS

- ASME code compliant
- NSF certified
- CE certified

THE OCTA TECHNOLOGY - AN OVERVIEW

The Background: The conventional internal shape for a membrane housing is considered as a round shape, but use of a round shape with multiple side ports provides a higher probability of side port leakage. Hence, the research background was that how to fit a flat surface in a circular membrane housing with multiple side ports.

The Research: Research with various possibilities proved that an OCTAGON is the best shape to solve the problem of fitting of flat surface in a circular membrane housing. Hence, the technology named after OCTAGON as OCTA Technology.

The Theory & Explanation: Inside of industrial membrane housing made up of OCTAGONAL SHAPE can accommodate multiple side ports with the best fit surface. The reasons are explained as shown on the pictures.

The Conclusion: Successful execution showed that an Octagon, besides providing the best fit, would also allow for multiple sealing surfaces, each at certain intervals along with side port mounting. Apart from the above it will also provide the benefits like easy on-site service & maintenance with quick locking mechanism along with improved head sealing and integrally wound locking groove. Thus, OCTA Technology sets a benchmark for manufacturing a membrane housings series using the unique "Octagonal Groove Forming Technique" and applicable for 8" membrane housings only.

Flat surface formed in the vessel shell - reduces counter boring

Seal seated against a flat surface

Threaded side port; seal seating on side port

CODELINE® OCTA 80U SERIES

8 INCH SIDE ENTRY MEMBRANE HOUSING WITH OCTA TECHNOLOGY FOR ULTRA HIGH FEED FLOW RO APPLICATION

MEMBRANE HOUSING DATASHEET

UNIQUE BENEFITS

- **Minimized Leakage:** The octagonal shape which is integrally formed provides a flat sealing surface for superior and reliable sealing of side ports
- **Easy Service & Maintenance:** The threaded side ports are easy to mount and allows quick & easy onsite maintenance and replacements reducing downtime
- **Quick Locking Mechanism:** The user friendly Quick Lock System eliminates the requirement of special tools for removal and lets easy access the membrane quickly
- **Improved Head Sealing:** Head seal which is captured in the head / sealing plate gives better sealing and avoids head seal to roll eliminating head leak defect
- **Integrally Wound Locking Groove:** Integrally wound locking groove gives enhanced end margin strength for better performance
- **Flexibility in permeate piping:** Standard permeate ports can be customised as special requirements
- **Reduced system cost:** Availability of Multiple Side port options upto 4" for high flow rate cuts down the investments on expensive manifolds

UNIQUE FEATURES

- **Mirror Finish ID** for easy & quick loading and unloading of membranes
- **Multi-porting option** available with 3.0" and 4.0" diameter for connecting vessels to each other
- **Quick lock head retention system** for quick access to membranes
- **Exteriors coated with high gloss polyurethane paint** for UV resistance
- **Head seal is captured**, hence doesn't roll during head assembly fitment
- **Compatible for using in all water type application**
- **Available in ASME certified models**

CODELINE 80U SERIE SPECIFICATION*

Model No.	Drawing No.	Max. Operating Pressure	Max. Operating Temperature	Qualification Pressure	Element Length
CODELINE 80U30	99021	300 PSI/20 Bar	190°F/88°C	1800 PSI/124 Bar	1-8
CODELINE 80U45	99189	450 PSI/31 Bar	190°F/88°C	2700PSI/186 Bar	1-8
CODELINE 80U60	99186	600 PSI/41 Bar	190°F/88°C	3600 PSI/248 Bar	1-8
CODELINE 80U100	99187	1000 PSI/69 Bar	150°F/66°C	6000PSI/414 Bar	1-8
CODELINE 80U120	99188	1200 PSI/83 Bar	150°F/66°C	7200 PSI/497 Bar	1-8

Any make of 8" nominal diameter spiral-wound element is easily accommodated.
